KAYLA GRIFFITH

SOFTWARE ENGINEER

kayla@griffcodes.com   708-790-0706   linkedin.com/in/kgriffcodes/   GitHub: @kgriffcodes

Solutions-focused software engineer with 2+ years of experience building and presenting scalable web applications. Proven strength in translating technical needs into business value, mentoring developers, and leading client demos across departments.

TECHNICAL SKILLS

React, Redux, JavaScript, TypeScript, HTML5, CSS3, SCSS, Tailwind, Node.js, Ruby on Rails, RESTful APIs, MongoDB, MySQL, Cursor, GitHub Copilot, ChatGPT, Builder.io, Lovable, Storybook, Bootstrap, MUI, Sanity CMS, Jest, React Testing Library, Web accessibility (W3C standards), responsive design, testing (Rspec, Capybara), Git, GitHub, CI/CD Pipelines (GitHub Actions, Netlify), Jira, ClickUp, Slack, Microsoft Teams

PROFESSIONAL EXPERIENCE

STITCH FIX   **San Francisco, CA**
Software Engineer I | Software Engineer II (Remote)   **June 2022 – July 2024**

- **Data-Driven Feature Development:** Built/maintained interactive frontend experiences in TypeScript/React that interfaced with internal databases and machine learning endpoints; collaborated with data scientists to deliver personalized client journeys and predictive features.
- **Full-Stack Experimentation Architecture:** Refactored key components of the A/B experimentation system in Ruby on Rails, streamlining test implementation and improving velocity across multiple product teams.
- **Scalable UI Development:** Developed performant, responsive, and accessible frontend components for Stitch Fix's e-commerce platform, adhering to WCAG standards and modern design systems.
- **Cross-Functional Collaboration:** Worked closely with product managers, designers, and data scientists to align on feature specs, user insights, and experimentation strategies across 12+ microservices.
- **Error Monitoring & Incident Response:** Participated in on-call rotations to triage and resolve live issues using PagerDuty, Datadog, and Bugsnag; proactively identified root causes and documented mitigation strategies.
- **Mentorship & Documentation:**
  Led internal working groups and mentored early-career engineers; authored technical docs to support frontend architecture, onboarding, and feature planning.

GRIFFCODES, LLC   **Chicago, IL**
Software Developer (Remote)   **January 2022 – Present**

- **Custom Solutions:** Leveraged AI-enabled tooling alongside traditional web technologies (React, Next.js, Node.js, Shopify, Sanity CMS, SCSS, Bootstrap, Tailwind) to engineer responsive, accessible websites tailored to client needs.
- **End-to-End Development:** Led all phases of project delivery, incl. technical scoping, UI/UX design, development, and live client demos.
- **Mentorship:** Coached 5+ early-career developers on frontend best practices, portfolio development, and building technical confidence.
- **Content Creation:** Produced YouTube content covering foundational software concepts, tech accessibility, and the evolving role of AI.
- **E-Commerce Product Development:** Currently building a branded Shopify storefront (MDE) with a focus on accessibility, performance, and clean design implementation using Builder.io and Lovable.

CREATING CODING CAREERS   **San Diego, CA**
Software Engineer | Software Engineering Apprentice (Remote)   **July 2021 – December 2021**

- **Client Demo Leadership:** Delivered multiple live product demos to clients as an apprentice engineer, translating technical updates into business-relevant insights and fielding real-time feedback.
- **Web Development:** Built responsive, client-centric web apps using JavaScript, React, Node.js, SCSS, and Sanity CMS.
- **Accessibility Implementation:** Authored company-wide accessibility guidelines based on W3C standards and integrated them into project workflows.
- **UI/UX Design:** Developed adaptive layouts and debugged frontends to deliver polished, user-friendly experiences.
- **Cross-Team Collaboration:** Worked with engineers and designers within our agency and directly with client-side technical teams to ensure integration of new features with legacy systems and infrastructure.

EDUCATION & CERTIFICATIONS

#100Devs | Software Engineering Bootcamp
Northwestern University | Communications, B.A.
Fulbright | Fulbright Scholar, Germany
